US HTS classification reference

73 conditional classifications | Adult men's garments/footwear where specified | Rules WR, RPO and DOWN are defined in the final pages.

Woven trousers and shirts

Product / variant	US HTS (10 digits)	HS (6)	General duty	Assign only when these conditions apply
Men's jeans - blue denim	6203.42.4511	620342	16.6%	Woven cotton blue-denim trousers; ordinary non-down branch. Excludes the specified compact-yarn branch. Verify fabric classification, not just a colour word in the title.
Men's trousers - other cotton / chinos / non-blue denim	6203.42.4518	620342	16.6%	Ordinary woven cotton trousers, other than blue denim, corduroy or medical-use garments; excludes specified compact yarns. Black/grey denim belongs here only if not classified as blue denim.
Men's trousers - cotton corduroy	6203.42.4506	620342	16.6%	Ordinary woven cotton corduroy trousers; excludes down and specified compact-yarn branches. Not shorts or overalls.
Men's casual cotton shirt - multicolour, napped	6205.20.2047	620520	19.7%	Woven non-dress shirt with two or more colours in warp and/or filling, napped (e.g. qualifying check flannel). Excludes corduroy, specified compact yarns and certified folklore products.
Men's casual cotton shirt - multicolour, not napped	6205.20.2051	620520	19.7%	Woven non-dress shirt with two or more colours in warp and/or filling, not napped (e.g. qualifying chambray/denim/check). Excludes corduroy and specified compact yarns.
Men's casual cotton shirt - other	6205.20.2067	620520	19.7%	Ordinary woven non-dress cotton shirt outside the multicolour-yarn, corduroy and specified compact-yarn branches; excludes medical-use garments. A single-colour title alone is insufficient.
Men's casual cotton shirt - corduroy	6205.20.2036	620520	19.7%	Ordinary woven non-dress cotton corduroy shirt; excludes specified compact-yarn branch. A corduroy overshirt classified as a jacket requires a jacket rule instead.
Men's wool shirt	6205.90.0710	620590	17.5%	Woven shirt classified as of wool or fine animal hair; not knitted, a jacket, or a certified hand-loomed/folklore product.

US HTS classification reference

Conditional product mappings | Match the full conditions, not only SKU/title keywords. Definitions follow the tables.

Woven outerwear

Product / variant	US HTS (10 digits)	HS (6)	General duty	Assign only when these conditions apply
Men's cotton denim jacket - ordinary	6201.30.8031	620130	9.4%	Men's woven anorak/windbreaker or similar jacket, not suit-type, an overcoat, or padded sleeveless; ordinary non-performance branch; does not meet the specified down thresholds. Blue denim; not water resistant under Additional U.S. Note 2.
Men's cotton jacket - ordinary other	6201.30.8051	620130	9.4%	Men's woven anorak/windbreaker or similar jacket, not suit-type, an overcoat, or padded sleeveless; ordinary non-performance branch; does not meet the specified down thresholds. Other than blue denim or corduroy; not water resistant under Additional U.S. Note 2.
Men's cotton corduroy jacket - ordinary	6201.30.8021	620130	9.4%	Woven cotton corduroy anorak/windbreaker or similar jacket; ordinary non-performance, non-down, non-water-resistant branch; not a suit-type jacket, overcoat or padded sleeveless jacket.
Men's cotton jacket - ordinary water resistant	6201.30.7000	620130	6.2%	Woven cotton anorak/windbreaker or similar jacket; ordinary non-performance, non-down branch; passes water-resistance rule WR. Not an overcoat or suit-type jacket.
Men's wool jacket - ordinary	6201.20.4011	620120	49.7¢/kg + 19.7%	Woven wool/fine-animal-hair anorak/windbreaker or similar jacket; ordinary non-recreational-performance branch; not a suit-type jacket, overcoat or padded sleeveless jacket.
Men's wool overcoat	6201.20.1110	620120	41¢/kg + 16.3%	Men's woven wool/fine-animal-hair overcoat, carcoat, cape, cloak or similar coat. Not a short jacket or suit-type jacket.
Men's synthetic jacket - ordinary	6201.40.7511	620140	27.7%	Men's woven anorak/windbreaker or similar jacket, not suit-type, an overcoat, or padded sleeveless; ordinary non-performance branch; does not meet the specified down thresholds. Of man-made fibres, below 36% wool/fine animal hair; not water resistant under rule WR.

US HTS classification reference

Conditional product mappings | Match the full conditions, not only SKU/title keywords. Definitions follow the tables.

Woven outerwear

Product / variant	US HTS (10 digits)	HS (6)	General duty	Assign only when these conditions apply
Men's synthetic jacket - ordinary water resistant	6201.40.7000	620140	7.1%	Woven man-made-fibre anorak/windbreaker or similar jacket; ordinary non-performance branch, below 36% wool/fine animal hair; non-down branch and passes rule WR.
Men's synthetic performance jacket - water resistant	6201.40.4500	620140	7.1%	Meets rule RPO and water-resistance rule WR; below 36% wool/fine animal hair; non-down branch. Plastic treatment alone does not establish WR. Check coated-fabric heading 6210 before assignment.
Men's synthetic performance jacket - not water resistant	6201.40.5011	620140	27.7%	Meets rule RPO through qualifying plastic treatment but not rule WR; below 36% wool/fine animal hair; non-down, not padded sleeveless. Check whether coated-fabric heading 6210 applies first.
Men's cotton performance jacket - water resistant	6201.30.4000	620130	6.2%	Meets rules RPO and WR; non-down branch. Plastic treatment alone does not establish WR. Check coated-fabric heading 6210 before assignment.
Men's cotton performance jacket - other	6201.30.5051	620130	9.4%	Meets RPO but not WR; non-down, not padded sleeveless, not corduroy or blue denim. Check coated-fabric heading 6210 before assignment.
Synthetic performance jacket - qualifying down	6201.40.2500	620140	4.4%	Woven man-made-fibre jacket meeting rules RPO and DOWN. A title saying down-filled is insufficient. Check coated-fabric heading 6210 first.
Cotton performance jacket - qualifying down	6201.30.3000	620130	4.4%	Woven cotton jacket meeting rules RPO and DOWN. A title saying down-filled is insufficient. Check coated-fabric heading 6210 first.

Knitwear, headwear and socks

Product / variant	US HTS (10 digits)	HS (6)	General duty	Assign only when these conditions apply
Men's cotton T-shirt - ordinary	6109.10.0012	610910	16.5%	Cotton knitted T-shirt outside the special plain-white and thermal-underwear branches; not a tank top, sweatshirt or woven shirt.

US HTS classification reference

Conditional product mappings | Match the full conditions, not only SKU/title keywords. Definitions follow the tables.

Knitwear, headwear and socks

Product / variant	US HTS (10 digits)	HS (6)	General duty	Assign only when these conditions apply
Men's/boys' cotton T-shirt - qualifying plain white	6109.10.0004	610910	16.5%	All white; short hemmed sleeves, hemmed bottom; crew/round neckline or qualifying mitred V-neck; no pockets, trim or embroidery. Do not assign solely because the title says white.
Men's cotton sweatshirt / qualifying hoodie	6110.20.2041	611020	16.5%	Knitted cotton garment classified as a sweatshirt; not the branch containing 36% or more flax. Verify hoodie construction is a sweatshirt, not another pullover/cardigan category.
Men's wool sweater - coarse knit	6110.11.0015	611011	16%	Of wool, not cashmere. Meets Chapter 61 statistical sweater definition: essentially 9 or fewer stitches per 2 cm, or qualifying sweater construction whose surface stitches cannot be counted.
Men's/boys' wool pullover - other/ fine knit	6110.11.0070	611011	16%	Knitted wool pullover outside the statistical sweater and non-sweater-vest branches; ordinarily more than 9 stitches per 2 cm. Cashmere has a different branch.
Cotton cap / hat - woven	6505.00.2060	650500	7.5%	Ordinary non-knitted cotton textile full-crown headwear, not babies; excludes special fur-felt constructions, plaited-strip hats and visors without crown coverage.
Cotton beanie / hat - knitted	6505.00.1540	650500	7.9%	Knitted cotton full-crown headwear, not babies or visors without crown coverage. Use actual material classification for blends.
Wool beanie / hat - knitted	6505.00.3090	650500	25.4¢/kg + 7.7%	Knitted/crocheted wool full-crown headwear, not babies or visors. Special felt constructions differ; cashmere/fine-animal-hair headwear needs separate checking.
Wool hat - other textile construction	6505.00.4090	650500	31¢/kg + 7.9%	Ordinary non-knitted wool textile full-crown headwear, not babies or visors; excludes special felt constructions classified in earlier branches.
Cotton socks - ordinary	6115.95.9000	611595	13.5%	Ordinary knitted cotton socks/hosiery without lace or net. Not graduated compression hosiery or separately classified pantyhose, tights or other special hosiery.

US HTS classification reference

Conditional product mappings | Match the full conditions, not only SKU/title keywords. Definitions follow the tables.

Footwear and laces

Product / variant	US HTS (10 digits)	HS (6)	General duty	Assign only when these conditions apply
Men's heritage / engineer boots - welt, non-leather sole	6403.91.3040	640391	5%	Leather uppers other than pigskin; covers ankle; legal welt construction; outer sole rubber, plastics or composition leather. Non-work branch; no protective metal toe-cap. Pull-on engineer boots may qualify.
Men's occupational work boots - welt	6403.91.3010	640391	5%	Ankle-covering leather-upper welt footwear with rubber/plastic outer sole, no protective metal toe-cap; occupational design plus workplace-hazard protection. Slip-on engineer boots do not qualify. Heritage/work styling alone is insufficient.
Men's boots - welt, pigskin upper	6403.91.3035	640391	5%	Ankle-covering non-work welt footwear with pigskin uppers and rubber/plastics/ composition-leather outer sole; no protective metal toe-cap.
Men's boots - welt, leather outer sole	6403.51.3030	640351	5%	Ankle-covering welt footwear with leather outer sole and leather uppers other than pigskin; no protective metal toe-cap. Do not infer outer-sole material from leather midsole or heel.
Men's engineer / casual boots - non-welt	6403.91.6075	640391	8.5%	Ankle-covering non-welt, non-athletic, non-work footwear; rubber/plastics/ composition-leather outer sole and non-pigskin leather upper; no protective metal toe-cap.
Men's athletic sneakers - textile upper	6404.11.9020	640411	20%	Textile upper and rubber/plastic outer sole; qualifying athletic construction; customs value over USD12/pair; other branch, not special sports footwear or otherwise excluded. Casual marketing does not make athletic construction non-athletic.
Men's non-athletic sneakers - qualifying other	6404.19.9030	640419	9%	Textile upper, rubber/plastic outer sole, non-athletic; customs value over USD12/pair; qualifying closed/fastened footwear or qualifying slip-ons with foxing(-like) band. Check protective, slipper and textile-contact-sole branches before assignment.
Men's textile slip-ons - vegetable fibre, low rubber/plastic	6404.19.2530	640419	7.5%	Qualifying slip-on/open footwear outside the foxing-band exception; vegetable-fibre upper; below 10% rubber/plastics by weight; not house slippers or footwear of 64041920. Confirm full Chapter 64 exclusions.

US HTS classification reference

Conditional product mappings | Match the full conditions, not only SKU/title keywords. Definitions follow the tables.

Footwear and laces

Product / variant	US HTS (10 digits)	HS (6)	General duty	Assign only when these conditions apply
Men's textile slip-ons - other fibre, low rubber/plastic	6404.19.3040	640419	12.5%	Qualifying slip-on/open footwear outside the foxing-band exception; non-vegetable textile upper; below 10% rubber/plastics by weight; not house slippers or footwear of 64041920. Confirm full Chapter 64 exclusions.
Men's textile slip-ons - other, higher rubber/plastic	6404.19.3940	640419	37.5%	Qualifying slip-on/open footwear outside the foxing-band exception; at least 10% rubber/plastics by weight; not house slippers; excludes earlier branches for specified textile-contact outer soles and footwear of 64041920.
Leather shoelaces	4205.00.2000	420500	Free	Shoelaces of leather or composition leather. Textile and cordage laces use different headings.
Finished fabric shoelaces - cotton	6307.90.5010	630790	Free	Finished cotton fabric footwear lacings. Certain cordage constructions instead fall under 5609; confirm construction, not just fibre content.
Finished fabric shoelaces - other fibres	6307.90.5020	630790	Free	Finished non-cotton fabric footwear lacings, e.g. qualifying polyester/nylon lacings. Certain cordage constructions instead fall under 5609.
Cordage shoelaces - cotton	5609.00.1000	560900	2.9%	Only footwear lacings classified as articles of cotton yarn/twine/cordage, rather than made-up fabric lacings. Construction review required; not an automatic alternative to 6307905010.
Cordage shoelaces - man-made fibres	5609.00.3000	560900	4.5%	Only footwear lacings classified as articles of man-made-fibre yarn/twine/cordage, rather than made-up fabric lacings. Construction review required.

Leather apparel, bags and wallets

Product / variant	US HTS (10 digits)	HS (6)	General duty	Assign only when these conditions apply
Men's leather jacket - ordinary	4203.10.4030	420310	6%	Men's/boys' leather or composition-leather coat/jacket; not an anorak and not reptile leather. Shirt-jackets require a garment-type decision.

US HTS classification reference

Conditional product mappings | Match the full conditions, not only SKU/title keywords. Definitions follow the tables.

Leather apparel, bags and wallets

Product / variant	US HTS (10 digits)	HS (6)	General duty	Assign only when these conditions apply
Leather anorak	4203.10.4010	420310	6%	Leather/composition-leather apparel classified as an anorak; not reptile leather. Do not use the ordinary leather-jacket suffix.
Men's leather shirt	4203.10.4085	420310	6%	Men's/boys' leather/composition-leather apparel other than coats/jackets; not reptile leather. A leather overshirt classified as a jacket uses the jacket branch.
Leather belt	4203.30.0000	420330	2.7%	Leather/composition-leather belts or bandoliers, with or without buckles. Buckles sold separately require separate classification.
Leather clothing accessories - other	4203.40.6000	420340	Free	Other leather/composition-leather clothing accessories, not reptile leather. Not separately classified belts, gloves, apparel, wallets or bags.
Leather articles - residual non-clothing	4205.00.8000	420500	Free	Residual other leather/composition-leather articles, not reptile leather, only after ruling out a more specific provision. Leather keyrings require checking the whole article and any metal component; not a universal keyring rule.
Polyester / nylon handbag	4202.22.8100	420222	17.6%	Handbag with man-made-fibre textile outer surface, not wholly or partly of braid; not a backpack, travel/sports bag or plastic-sheet-surface bag.
Polyester / nylon backpack	4202.92.3120	420292	17.6%	Backpack within travel/sports/similar-bag provision, with man-made-fibre textile outer surface. Coating can affect which material constitutes the outer surface.
Polyester / nylon travel / sports / similar bag	4202.92.3131	420292	17.6%	Other travel/sports/similar bag with man-made-fibre textile outer surface; not a backpack, handbag or insulated food/beverage bag.
Cotton canvas tote / travel / similar bag	4202.92.1500	420292	6.3%	Travel/sports/similar bag with cotton vegetable-fibre textile outer surface, not pile or tufted construction; not a handbag or packing sack. Confirm use and outer surface.
Cotton packing sack / bag	6305.20.0000	630520	6.2%	Cotton sack/bag of a kind used for packing goods; not a reusable travel/shopping tote classified in 4202.

US HTS classification reference

Conditional product mappings | Match the full conditions, not only SKU/title keywords. Definitions follow the tables.

Leather apparel, bags and wallets

Product / variant	US HTS (10 digits)	HS (6)	General duty	Assign only when these conditions apply
Leather wallet	4202.31.6000	420231	8%	Pocket/handbag-type wallet with leather/composition-leather outer surface, not reptile leather. A leather lining does not establish the outer-surface material.
Nylon / polyester wallet	4202.32.9300	420232	17.6%	Pocket/handbag-type wallet with man-made-fibre textile outer surface, not wholly or partly of braid and not plastic sheeting.

Jewellery, small textiles and other products

Product / variant	US HTS (10 digits)	HS (6)	General duty	Assign only when these conditions apply
Silver jewellery - ordinary finished	7113.11.5000	711311	5%	Finished silver jewellery valued over USD18 per dozen pieces/parts; excludes chain stock suitable for jewellery manufacture. Precious-metal-clad base metal is a different branch.
Silver jewellery - low value	7113.11.2000	711311	13.5%	Other silver jewellery valued not over USD18 per dozen pieces/parts; excludes chain stock suitable for jewellery manufacture.
Silver chain stock for jewellery manufacture	7113.11.1000	711311	6.3%	Qualifying rope/curb/cable/chain articles produced in continuous lengths, suitable for jewellery manufacture. Chain sold by length alone is insufficient; finished jewellery requires separate consideration.
Brass / base-metal jewellery - ordinary finished	7117.19.9000	711719	11%	Ordinary finished base-metal imitation jewellery; not precious-metal-clad base metal, cufflinks/studs, devotional articles, qualifying manufacturing chain stock or low-value toy jewellery.
Cotton bandana - handkerchief type	6213.20.1000	621320	13.2%	Hemmed cotton handkerchief-type article, square/approximately square with no side over 60cm; no lace or embroidery. Material, shape and dimensions must be confirmed.

US HTS classification reference

Conditional product mappings | Match the full conditions, not only SKU/title keywords. Definitions follow the tables.

Jewellery, small textiles and other products

Product / variant	US HTS (10 digits)	HS (6)	General duty	Assign only when these conditions apply
Cotton bandana / scarf - scarf type	6214.90.0010	621490	11.3%	Cotton shawl/scarf or similar article; includes square/approximately square scarf-type articles with a side over 60cm. Not a knitted scarf or handkerchief-type article.
Woven patch / badge - cotton	5807.10.2010	580710	3.3%	Non-embroidered woven cotton badge/patch or similar article in the other-than-labels branch. Woven labels have different suffixes; leather patches differ.
Woven patch / badge - man-made fibres	5807.10.2020	580710	3.3%	Non-embroidered woven man-made-fibre badge/patch or similar article, other than labels. Use actual material classification.
Embroidered patch - cotton, not over 200 g/m2	5810.91.0020	581091	See additional U.S. note 1	Cotton embroidery in the piece, strips or motifs, including qualifying patches; weight not over 200g/m2. Not embroidery without visible ground. Confirm material classification and fabric weight.
Embroidered patch - cotton, over 200 g/m2	5810.91.0010	581091	See additional U.S. note 1	Cotton embroidery in the piece, strips or motifs; weight over 200g/m2. Not embroidery without visible ground. Confirm material classification and weight.
Embroidered patch - man-made fibres	5810.92.1000	581092	See additional U.S. note 2	Man-made-fibre embroidered badge, emblem or motif. Not a woven-only patch, label or embroidery without visible ground.
Porcelain / china mug - ordinary household	6911.10.4500	691110	14%	Household porcelain/china mug, not bone china, not available in the specified tableware sets and not restaurant/hotel ware. Stoneware/earthenware mugs require another heading.
Shoe / leather polish or cream	3405.10.0000	340510	Free	Polishes, creams and similar preparations for footwear or leather. Not all shoe-care products: brushes, detergents/cleaners and other preparations require separate classification.

US HTS classification reference

Scope

US import classification reference, based on the original PDF categories and the reviewed revisions. Adult men's clothing and footwear where specified. Each row is a conditional candidate, not confirmation that every SKU in the category qualifies.

Using the CSV

One ten-digit US HTS number per row, stored as text without punctuation in the US HTS code column. The six-digit prefix and formatted version are reference fields. This is a mapping reference, not a Shopify inventory import file.

Material and construction

Determine textile material classification from actual fibre composition and tariff rules. Titles, SKU prefixes, brand, marketed gender and colour alone may omit decisive facts. Do not force unknown products into a default code.

WR - water resistance

Chapter 62 Additional U.S. Note 2: no more than 1.0g of water penetrates after two minutes at 600mm head pressure under the current AATCC 35 method; see ASTM D7017. Resistance must result from rubber/plastics applied to outer shell, lining or inner lining. A water-resistant marketing claim is not proof.

RPO - recreational performance outerwear

Chapter 62 Additional U.S. Note 3: qualifying garment/material; water resistant under WR or treated with plastics, or both; critically sealed seams; at least five specified performance features; occupational outerwear excluded. Keep supporting records. Read the complete note: a title saying performance is insufficient.

DOWN - qualifying down content

By weight: at least 10% down; OR at least 15% down and waterfowl plumage, with down comprising at least 35% of that mixture. A down-filled title or the fill blend percentage alone does not establish the percentage of the whole article.

US HTS classification reference

Footwear

Check actual upper and outer-sole materials, legal welt construction, ankle coverage, wearer, protective toe, athletic/work status, closure, foxing and customs value. The EU 24cm insole split does not determine the US classification. Vibram is a brand, not a material or tariff category.

Other jacket types

This list does not assign full ten-digit codes to every blazer, suit-type jacket, coated-fabric garment, womenswear, down garment or recreational-performance variant. Heading 6210 can override ordinary coated-fabric garment headings. Obtain further product details for unlisted variants.

Base duty only

General duty is the Column 1 General base rate, not a landed-cost quote. Origin-dependent Chapter 99 duties, preferences, other measures and fees can change the amount payable. Free means the base rate is free, not that every shipment has no charges.

Source and date

Official USITC Harmonized Tariff Schedule, 2026 Revision 22, reviewed 8 November 2026. Every listed code and base rate was checked against official tariff entries; product conditions were checked against relevant chapter text. Recheck the tariff when assigning or shipping.

Official sources and data transfer

Official lookup: https://hts.usitc.gov/
Edition announcement: https://www.usitc.gov/harmonized_tariff_information
Each CSV row includes a direct official code-search link. Chapter 62 contains WR/RPO rules; Chapter 64 contains footwear definitions; Chapter 61 contains the statistical sweater definition.

The list does not establish automated transfer from Shopify to UPS or CampusShip. Shipping software must transfer the selected US HTS number and origin into shipment customs data.
